

Customer: Feodosia Oil Terminal, Simferopol

Hardware / Software: PLC Mitsubishi Electric QnAS HMI Mitsubishi MAC E-series| CitectSCADA | FieldBus | Profibus-DP | MelsecNet | Industrial Ethernet

Scope of work: central project, installation supervision, commissioning

Year of implementation: 2006

Key features of the system:

- Total number of actuators:
- Total number of digital I/O signals:
 - digital inputs:
 - digital outputs:

- Total number of control cabinets:
- Total number of controllers:
- Total number of HMI panels:
- Total number of workstations:
- External digital communications:

- accounting system of oil tank farm SAAB TRL/2 (MODBUS)
- fire alarm system SCHRACK INTEGRAL (ISP)
